

Script for The Wauseon Preparedness Net Control

This is **(callsign)** calling the Wauseon Preparedness net. This net meets on the 2nd and 4th Sunday's of each month at 8pm on the K8BXQ repeater with a frequency of 147.195 located in Wauseon Ohio. This net expresses its gratitude to the Fulton County Amateur Radio Club for the use of the repeater. The purpose of this net is to be of assistance to the public by providing education and information pertaining to preparedness. This net is open to all amateur radio operators, and your participation is welcome. The net will consist of check-in's, education, and comments from those who check-in.

All stations checking in should give there complete callsign followed by their first name and location. After taking check-ins Net Control will delegate the education portion of the net. At the conclusion of the education, Net Control will call each station, and ask for any comments.

This is **(callsign)** now calling for short time, and in and outs. (Enter on log and acknowledge check-ins.)

Now this is **(callsign)** calling for all General check-ins. (Enter on log and acknowledge check-ins.)

We will now conduct the education portion of the net. **(Educator Callsign)** will now provide tonight's information. **(Educator Callsign or name)** please come now.

(Once education is concluded) **(Educator Callsign)** this is **(Callsign)** than you for providing tonight's education portion of the net. We will now take comments in check-in order. (Call each net participant in order of check-in.) (73 round is at the discretion of Net Control.)

We would like to thank all those who participated in the net tonight, and to all those who were listening. We had ___ check-ins tonight. The time is _____. This is **(callsign)** and I will now close the Wauseon Preparedness net. The repeater is now being returned to normal amateur radio use. 73, this is **(callsign)**, now clear.
